How can I use a Housing Choice Voucher to purchase a home?

OCHA uses the same rental assistance Payment Standards to help pay for homeownership.

The approximate maximum loan amounts and estimated minimum down payments are as follows:

	One bedroom home	Two Bedroom home	Three Bedroom home
Estimated Maximum Loan	\$150,000-\$180,000	\$170,000-\$215,000	\$265,000-\$305,000
Minimum 3% Down payment	\$4,500-\$6,000	\$5,100-\$6,450	\$7,950-\$9,150

If you find a property in your eligible bedroom size that is higher priced than the above sample loan amounts, your down payment will have to make up the difference. (see details on page 2)

How much will I need for a down payment?

The amount of the down payment depends on the price of the home you buy and your lender's requirements. Your minimum down payment will be at least 3% of the purchase price. At least 1% of the down payment must come from your own savings; the balance may be from city, state and other homebuyer programs that offer down-payment/purchase assistance or can be a gift from a friend or relative. You are also responsible for closing costs.

How long can I receive homeowner assistance?

For mortgages that are 20 years or more, Voucher assistance can be used for a maximum of 15 years. A maximum of ten years of assistance can be paid on mortgage loans of ten years (or less). There are no term limits for elderly and/or disabled households.

How does financing work?

Participating homebuyers are responsible for securing their own mortgage financing. Each participant will have to be pre-approved by a lender. To qualify for participation in the HCV Homeownership Program you must be eligible for a home loan with a lender/financial institution that is willing to accept monthly mortgage payments in two (2) increments: one monthly payment from the participant and one payment from OCHA.

How much assistance can I receive?

The amount of assistance from the HCV Homeownership Program depends on your household income and total monthly homeownership costs. In general, the amount of assistance will be very similar to the amount that OCHA currently pays your landlord for rental assistance. OCHA will adjust assistance payments when a qualifying income change occurs and is reported timely by your household, as in the rental program.

The following shows examples of the maximum loan and housing costs that can qualify under OCHA Payment Standards. OCHA's monthly payments will apply to Principle and Interest (PI) and Taxes included in the mortgage payment. Homebuyers are responsible for their portion of the total housing costs.
